Below you can see a look at the new "HyperMotion Technology" demo from this year's E3. HyperMotion Technology - Real Players in real action Now in FIFA 21, use technical innovations like Real Player Motion and new on-ball intelligence to create a deeper and more authentic football experience on both desktop and mobile. New Real Player Motion FIFA 21 includes state-of-the-art technology developed by EA SPORTS to simulate more realistic ball physics and player movements. A new physics engine helps you move the ball more naturally through the air and the ball stays in the air longer. New on-ball intelligence Take full control of your players, choose the best pass and flick through your options using new on-ball intelligence and an improved goalkeeper engine. New Player Traits FIFA 22 introduces new visual traits that respond to real-world player characteristics, such as players with different leg lengths. Players with long or short legs can be more prone to turning or can possess increased strength and acceleration with every step. FIFA 22 is coming November 27 to Xbox One and PlayStation 4, and is also available for PC. DigiXpress DigiXpress is a display technology that was introduced in 2005 by Digi-Key Electronics. DigiXpress is a type of OLED display that provides a clear, bright, and colorful display with low power consumption. DigiXpress is a matrix-addressed display with 11 segments in a row. FIFA is the original football franchise, and this year we've added one more reason to keep playing the game: FIFA. FIFA reinvented how to play football in video games. It features the most authentic player feeling and collisions, along with dynamic gameplay that felt like a big game, even on a small screen. With FIFA, it's all about the player. The player is free, he spins on one leg to turn toward the ball, and can get back to his original position with a single foot movement. If he kicks, the ball flies forward in a realistic trajectory. Free and intuitive to play, every decision your player makes is real. His skills are not governed by the rules of the game, so he can play at a very casual or a very professional level, it's up to you. Everything is possible, including world-class matches: dribbles, tackles, scoring spectacular goals, and leading the team to glory. The only limits are your imagination. Delivering excellence at every level. The FIFA development team has taken two years to deliver on the potential of every new release, and in FIFA 22 we've taken everything that was cool from the previous game and made it cooler. We've built upon the game's foundation, making every new element of play and detail feel even more real. There are countless improvements on all levels, including: Real Player motion and physics Dynamic animations Tuned ball physics UEFA Champions League New card system Ball Breaking Dynamic lighting Realistic crowds Player adaptivity to changes in weather and daylight (after sunset) FIFA 22 EA SPORTS Special Offer If you want to own a perfect football game, no other than EA Sports FIFA 22, please get your FIFA Ultimate Team FIFA 22 EA SPORTS Special Offer now. A free Ultimate Team FIFA 22 EA SPORTS offer is now available in the Xbox Store and the PlayStation Store in both Standard and Gold Editions. FIFA Ultimate Team Mode The biggest update for Ultimate Team Mode in FIFA 20 was the introduction of new and unique trading cards, and now FIFA 22 extends the mode with a fully revamped card distribution system. With FIFA 22, you can distribute cards to your players with ease, and you can add cards to your ultimate teams from within the game itself. Cards can also be obtained from various scenarios, such as elite matches in seasons
